

## Presentation of UNFPA CGBV/Armenia Bilingual Website

***On June 17, 2010*** the newly launched UNFPA CGBV project's national bilingual website <http://www.genderbasedviolence.am> was presented to the main stakeholders.

The participants of the meeting received information leaflets designed and printed by UNFPA CGBV project that feature the national website, as well as a detailed description of the website structure with relevant menu items and directories. It was prepared to underline website's main features and strategically important content, such as issue-related documents and publications in E-Library, project components listed as per separate directories, as well as links to the regional and national websites of CGBV project.

During the presentation UNFPA CGBV Project Coordinator stressed the importance of the website as being one of the key information and awareness raising tools in the field of combating GBV in Armenia and in the region, and highlighted the role of electronic media as an effective means for reaching out to various groups of population, including in the first place policy-makers and organizations working in the field.

The presentation was attended by representatives of the RoA Government, including the Cabinet of the Prime Minister, Ministry of Labor Labor and Social Affairs, Ministry of Foreign Affairs, Ministry of Healthcare, Ministry of Justice, Ministry of Economy, Ministry of Education and Science, RoA Police, as well as civil society and international organizations.
